International Distribution Management

We handle all manner of shipment worldwide. Our carefully chosen global networks of agents are specialized in general forwarding. We have established strong overseas relationships with leading transportation organizations throughout the world. This association allows National Cargo Services to offer door to door service to and from any country in the world.

The services of coordination of transport that we offer cover the areas of sea, air and land transport in all targets that have commercial interchange with Bangladesh.

For years, National Cargo Services and our network of agents in the whole world have worked closely to offer you the safest, most efficient method of transporting all types of commodities to various countries.

We offer shipments of loose cargo, consolidations, full container loads, vehicles and heavy equipment, thus keeping your costs as low as possible.

National Cargo Services experience and technology assures that all the information on your shipments carefully monitored and secured. And with National Cargo Services strategic pricing structure, shippers and importers pay less for a more efficient service.

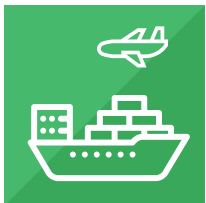

Ocean Freight Forwarding

Since the inception of the company, National Cargo Services has also met the forwarding requirements for longer shipments moving by ocean freight. Our ocean department can orchestrate the many details of inter-modal transfer required in an ocean shipment efficiently. We take care of the details from the quote, booking of cargo, stuffing of cargo as per sequence, preparation of container manifest and loading plan, as well as preparation of all necessary documents including the issuance of House Bills of lading and obtain Ocean Bills of lading from the concern Shipping Line in time. Track the movement of each container with the concern carrier and keep the customer informed until it arrives at destination.

Air Freight Forwarding

With a network of reliable and carefully selected agents throughout the world, National Cargo Services can handle shipments of any size/volume by airfreight. Service can be tailored to the customer's needs depending on transit requirements from same day to several day's service. In the competitive cargo services world, it is absolutely necessary for us to be speedy and viable as much as possible and we have achieved it. We do apply our professional skills to select the most appropriate Air Lines for the booking of the valuable consignments of our valuable customers on different route; with the concept to make it cheapest as well as the safest and the quickest. Smaller or larger, all of our clients are equally important to us.

Sea-Air & Air-Sea Freight Forwarding

Inter model Transportation Sea-Air & Air-Sea Transshipment, the means to reducing transportation time and cost of any shipment who has a deadline to meet, but either the buyer or shipper can not afford the total airfreight cost of said shipment, since the cost difference between air & ocean freight is quite large. Hence, National Cargo Services is able to offer an alternative service to it's valuable customers to meet their requirements on a minimum cost and quickest transit time, namely Sea-Air or Air-Sea service combination which ever is convenient for the customer from Bangladesh to the USA and European Destinations time to time.

The National Carrier have own fleet of covered trucks and trailers in order to carry valuable export and import goods throughout the country with safety and security. We can route your freight through many different carriers by using our own fleet of 100 Covered Vans, Ten-Wheelers and Prime-Mover Trailers. We can pick your export shipments up from the factory premises and to drop the same at the port CFS or airport warehouse and vice-versa by using our own fleet with care. A daily pick up service can be provided if needed to handle your shipment from envelop size to truckload size shipment.
